

3rd IEEE-TEMS International Conference on
Technology and Entrepreneurship 2023

DIGITAL ECOSYSTEMS FOR SUSTAINABLE SOCIETY

Face-to-face conference experience with online sessions available

You are invited to participate in the highly anticipated 3rd IEEE TEMS-ICTE 2023 conference on Digital Ecosystems for Sustainable Society. This Conference will bring together leading minds from business and academia to share their insights, knowledge, and expertise on the impact of digital transformation on the development of a sustainable society.

The IEEE-TEMS ICTE 2023 conference on Digital Ecosystems for Sustainable Society is a unique opportunity for organizations to showcase their commitment to innovation and sustainability in the rapidly evolving digital landscape.

JOIN US at the IEEE TEMS-ICTE 2023 conference on Digital Ecosystems for Sustainable Society, and stay ahead of the curve in the rapidly changing digital landscape.

9–11 October, 2023

Santaka Valley, Kaunas, Lithuania

WHY ATTEND?

Branding and Exposure

Attending the conference can also provide branding and exposure opportunities for businesses.

Access to World-renowned Keynote Speakers

The conference will feature world-renowned keynote speakers who will provide insights into the latest trends in digital ecosystems for a sustainable society.

Access to Research and Insights

The conference will provide access to research and insights from industry experts, which can be used to inform business strategies and decision-making.

Brokerage Event

The conference will also include a brokerage event, which will enable attendees to connect with potential partners and collaborators.

Engage in Interactive Business Case Studies

The conference is dedicated to interactive business case studies, giving you the opportunity to learn from real-world examples of successful digital ecosystems for sustainable society.

Learning Opportunities

The conference will provide valuable learning opportunities for business participants, including insights into the latest market trends, industry developments, and emerging technologies.

Network with Industry Leaders

The conference is expected to have over 300 international participants from business and academia. This provides an excellent opportunity to network with industry leaders and form valuable connections.

Participate in Global Challenges

The conference will provide a platform for discussing global challenges and how digital ecosystems can address them. Attendees will have the opportunity to participate in discussions and exchange ideas with experts from various industries and regions.
